

# Spectrum History

1930	First year of “The Engineering Show,” a presentation of student design projects
1934	
1938	
1942	
1946	
1951	
1955	Displays include a Super-Constellation aircraft and a scale model of an oil rig
1959	Features model of Steelman Gas Plant from Government of Saskatchewan
1963	Govt. of Canada’s Department of Mines contributes a display about uranium
1967	Features spacecraft from NASA, model atomic reactors from Govt. of Canada
1970	Theme: Engineering for Humanity in the Twenty-First Century
1973	Name change: “The Engineering Show” becomes “Spectrum”
1976	Displays include a bio-degradable toilet, electric cars, and solar collector
1979	Theme: Man in the Future
1982	Spectrum coincides with college’s 70 <sup>th</sup> anniversary & opening of new building
1986	First Spectrum that offers a magazine to attendees
1989	Theme: Engineering Our Future
1992	Theme: Discover Engineering
1995	Theme: Enhancing Your Future
1998	Theme: Shaping the Next Millennium
2001	Cameco becomes the name sponsor
2004	Theme: Foundations of Innovation
2007	Theme: Progress Through Design
2010	Guest speaker Jay Ingram, host of Daily Planet and CBC’s Quirks and Quarks
2013	Theme: Inspiration without Limits
2016	Theme: Shaping the Future
2019	Theme: Explore Science and Engineering
